

# CoolCal

## Have you already done the heat shielding measure of truck ?

It contributes to the quality control and energy saving just to put it to the roof panel of refrigerator car or truck.

### ■ Specification

Product Name	CoolCal
Product No	CLCL122
Substrate thickness	PVC Film (White)
Adhesive layer	30 μm
Size	1,200mm × 20m

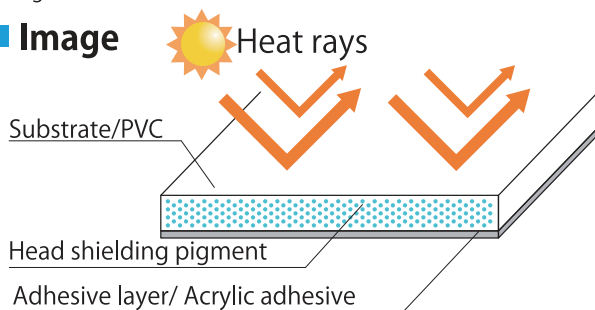

### ■ Features

CoolCal is efficiently reflects heat rays and it is a functional film with glue.

To suppress an increase in the temperature of the body thermal barrier pigment kneaded in PVC film is reflected heat rays of sunlight.

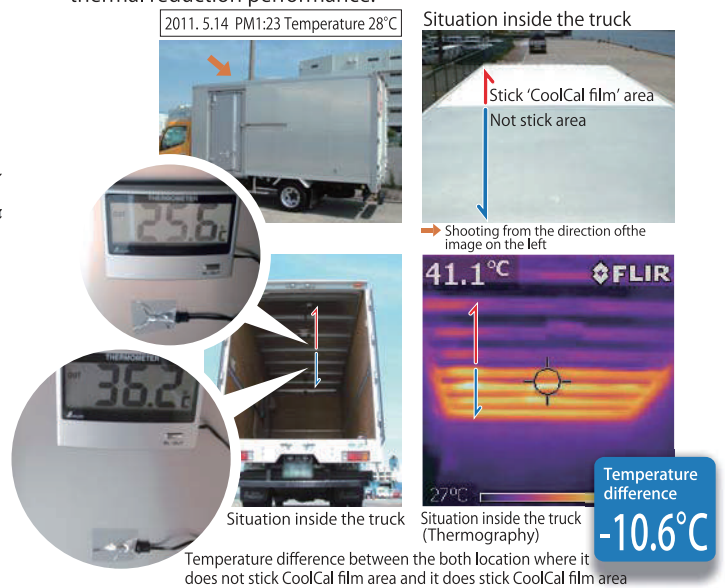

### ■ Image

### ■ Temperature in truck car data

Used by thermometer and thermography testing of thermal reduction performance.

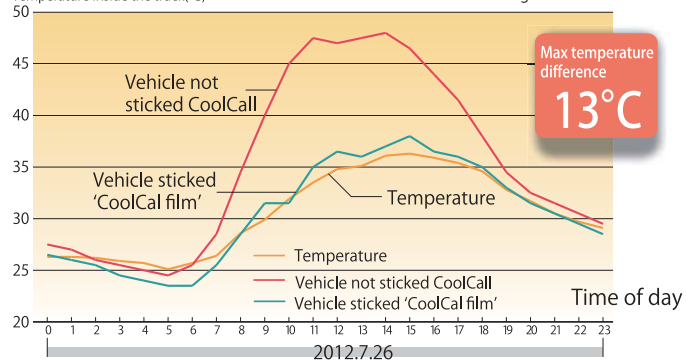

※ Without heat insulating material

### ■ Temperature in food delivery vehicle data

Temperature inside the truck(°C)

※With heat insulating material 30mm
